

**THE MOST EXPENSIVE PIPE  
IS THE PIPE THAT  
GETS THROWN AWAY  
DUE TO A CUT  
THAT IS LESS  
THAN PERFECT.**

YOUR TEAM IS ON THE FOREFRONT OF CHANGE. PRECISION MATTERS.

# Revolutionized PVDF Pipe Cutting

**Now Faster, Safer, More Efficient, Incredibly Clean  
and Eliminates Costly Micro-Fractures!**

The **PolySever** line is the future of PVDF and polypropylene pipe cutting. It delivers unmatched speed, safety, and efficiency every time. Designed for single-operator use, it cuts PVDF, polypropylene and other plastic pipes in under 90 seconds with no heavy labor required. In addition, with a compact, portable design, it is ideal for many cleanroom environments, while its advanced cutting technology eliminates costly micro-fracturing, ensuring perfect, crack-free results every time.

**Finally, “cleanrooms” stay clean!**

## **VERSATILE**

Wide range of material cutting capabilities

## **FAST**

Quickly and safely cuts PVDF & Polypropylene pipes with ease

## **EFFICIENT**

Customers rave about cost-savings and the equipment paying for itself in the first month!

- Cuts PVDF pipes in under 90 seconds
- 1.5" to 6" [50 mm - 160 mm]
- OD Mount Machine
- Single-operator use – no heavy labor required
- Fully enclosed gears for operator safety
- Portable & compact design perfect for cleanroom environments
- Eliminates micro-fracturing to ensure perfect, crack-free cuts
- High precision & consistency - no more errors or wasted material
- Drastically reduces labor costs for higher efficiency & lower expenses
- Rental options available
